Walter Reed Medical Ethics Short Course 2016

Monday, December 05, 2016 - Thursday, December 08, 2016
WRNMMC, Bethesda, MD

Provided By
U.S. NAVY NMPDC

Activity ID	Course Director	CME Planner
2016-1503	MAJ, JEFF S. MATSLER	MAJ JEFF S. MATSLER, STM, ThM

Accreditation Statement

The Navy Medicine Professional Development Center (NMPDC), Continuing Medical Education (CME) Department, Bethesda, Maryland is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for Physicians.

Credit Designation

The Navy Medicine Professional Development Center designates this Live Activity for a maximum of 0 *AMA PRA Category 1 Credit(s)*.TM Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Statement of Need/Gap Analysis**The purpose of this CME activity is to address the identified gap(s):**

1. Train learners to become familiar with ethical guidelines and practices. They must identify the differences between standard bioethical models and the unique environment characterized by military medicine. They must learn to provide this ethical perspective and level of care in all settings including the combat environment - that has constraints and challenges not encountered or taught in a civilian healthcare setting.

Learning Objectives

1. Be able to recognize ethical concerns in the care of patients
2. Recognize ethical issues when they arise in practice
3. Have a better understanding of the proposed prioritization of health care
4. Be able to identify moral distress in oneself and in other healthcare professionals
5. Have a better understanding of and ability to assess multi-faith/cultural responses in the delivery of healthcare
6. Better appreciate the crisis for health care at the end of life

Target Audience / Scope of Practice

This intensive course is designed for members of ethics committees and others interested in ethical aspects of clinical practice. The target audience are Military and DOD physicians, ethics consultants, nurses, chaplains, social workers, health care administrators, respiratory and other therapists, human rights officers, patient representatives, psychologists, members of clinical ethics committees, organizational ethics task forces and ethics support services, risk managers, hospital attorneys and trustees. Any or all of these Military health professionals are invited to attend.

Every healthcare encounter involves some level of ethical implication and potential for uncertainty and conflict. The MESC will incorporate and leverage the knowledge of common ethical problems and dilemmas in medicine, and present strategies to address them. The course is designed to help participants increase their competence in addressing and resolving ethical questions in medical care. A combination of lectures, case discussions, training and seminars will cover the core issues of ethical theories, principles, and methods, key bioethics cases, evolving standards for ethics consultation, and areas of clinical ethical controversy and consensus. The course is designed to meet professionals where they are, engage at all levels, introducing

concepts and theory with best practice and to enhance and strengthen current competencies. The course will also introduce the basics of Medical Ethics.

Policy on Disclosure

As a provider accredited by the ACCME, it is the policy of the U.S. NAVY NMPDC to require the disclosure of the existence of any relevant financial interest or any other relationship a faculty member or a spouse has with the manufacturer(s) of any commercial product(s) discussed in an educational presentation. Detailed disclosure will be made in the course syllabus/course handouts.

** The U.S. NAVY NMPDC supports the Americans with Disabilities Act. Please contact the Course Administrator for any special request. **

Acknowledgement of Commercial Support

There is no commercial support associated with this educational activity.
