

## Remote Access

Request an EZproxy login to access all of our online content from any device with Internet connectivity: desktops, laptops, tablets, and smartphones!

### Directions:

- On the website, click the “Services” tab and select “Remote Access Instructions.”
- Fill out and submit the EZproxy login request form. We will email you your username and password within twenty-four hours.
- When you attempt to access a database remotely, you’ll be prompted to login with your EZproxy username and password. Thereafter, you’ll be able to access all of library’s content without further logins!

# DARNALL MEDICAL LIBRARY

*We Serve You!*

Welcome to Darnall Medical Library! We aim to be a forward-looking, innovative service valued by the WRNMMC staff as an integral component of quality healthcare delivery by providing access to a broad scope of current, evidence-based medical, nursing, and allied health literature; responding to the resource and service needs and requests of the healthcare providers; performing literature searches in a timely manner; educating providers on searching, retrieving, and evaluating information; developing and/or implementing novel library service delivery models, particularly at the point of care; and capitalizing on the latest technology to make resources more accessible.
