This patient participated in a bariatric pre-op support group (x2) on the following dates:

#1 Date: _________________ Location: ______________________________________
  Facilitator’s Signature: ________________________________________________

#2 Date: _________________ Location: ______________________________________
  Facilitator’s Signature: ________________________________________________

**Sleep Study:** BE 301-295-4547  WRAMC 202-782-0596

☐ CPAP/BiPAP not recommended
  ☐ CPAP/BiPAP recommended
  Setting: ______________________________________________________________

Signature: ______________________________________ Date: ______________

**Endoscopy:** WRAMC Central Appoints: 202-782-7761

This patient completed the required pre-op endoscopy on the following date: ________
Resting LES pressure: ____________________________
H Pylori: If positive, was patient treated? ______________

Signature: ______________________________________ Date: ______________
**Patient**

**Prepare Mentally and Emotionally:**

☐ I understand the surgery I will be having. I have read all information given to me by the clinic staff.

☐ I can commit to the changes in my lifestyle, such as the new diet and exercise program, and continuous follow up with my surgeon, dietitian, and exercise physiologist.

☐ I discussed having bariatric surgery with my family and/or friends.

☐ I know where to get the information and support I need for this journey

**Initial Lifestyle Changes:**

☐ I have started changing my diet to align with recommendations.

☐ I have lost at least 10 lbs since I was referred by my PCM.

☐ I have kept my food and exercise logs throughout this process.

☐ I have stopped smoking since enrolling in the program (if I had ever smoked at all).

☐ I have started an exercise program—walking as tolerated, swimming, ....

☐ I understand that I must adhere to a 2 week pre-op liquid protein diet.
